Summer 2014 s401 Course Calendar

Examine the schedule below. The first column contains dates. The second column contains activities you should work on during the week indicated by the date. The third column shows specific assignments that are due on the date indicated in the first column.

Note on Due Dates: All assignments are due by MIDNIGHT on the dates listed.
One advantage of this type of course is flexibility. However based on my experiences teaching online, it's important to establish due dates. The due dates are provided to ensure that all students are successful in this course. Please let me know if you need to change these dates because of personal or professional responsibilities.

Date	Suggested Activities	Assignments Due
Before May 14	Get an IUPUI network account to use Oncourse Explore course materials Explore Oncourse and set up Profile. Introduce yourself activity.
